

POST-SEASON RULES & REGULATIONS

The Bluewater League post-season will determine the team(s) in each division / category that will advance to the OMHA Championship weekends. Unless and until the OMHA championship weekend format changes, these rules will apply. The dates by which the teams' names must be submitted to the OMHA are determined by the OMHA.

The format will be determined by the Bluewater League representatives in conjunction with any additional rules or regulations that the OMHA may provide. As such, the format may change from year to year and will be noted in the Bluewater league meeting minutes.

OPTIONS:

1. Bluewater teams may compete in series elimination style play until a division / category representative team is determined. Series lengths will be 4pt or 6pts in length and must be completed within a pre-determined date range as set by the League to align with the OMHA team declaration date.
2. Bluewater teams may compete in round-robin style play until a division / category representative team is determined. RR play may be a 2-game or 1-game format depending on the number of calendar days allotted for completion.

NOTE: in a case where regular season standings yield a *tie*, the tie will be broken by using the League standings found on the Bluewater website (www.bluewaterhockey.ca) and the following formulas:

- head-to-head
- winning percentage
- goals for and against average
